Who it is for

Street, car parks and public sites with changing users.

Connection

A three phase connection. Your electrician sets the cable size and the fuse.

ABOUT THIS CHARGER

The AC Ultra Street Charger is a powerful charger built for public use. Available as a separate variant with space for the grid operator's cabinet and digital meter. The 8 inch touchscreen shows all session information, which makes the charger AFIR compliant, and can play advertising for extra revenue. It complies with ISO 15118-2/20 (Plug & Charge and V2G) and is available with an optional payment terminal. Supplied as standard with 2 Type-2 sockets; a fixed cable is only available on request from 30 units.
